

Dear Outside In CAMS Patients,

It is with deep sorrow that I announce that our Complementary Alternative Medicine Services Clinic will not be reopening. Our CAMS Clinic initially closed at the onset of the pandemic, and after many conversations about the state of Outside In's budget and the financial viability of these programs, the difficult decision was made to no longer offer alternative medicine services. We have enjoyed the opportunity to be your alternative medicine provider and are honored that you have chosen us for your acupuncture and chiropractic care.

We are grateful to our community partners, and we hope that you will be able to continue your alternative medicine care at one of our partnering school clinics. This includes the National University of Natural Medicine (NUNM), Oregon College of Oriental Medicine (OCOM), and University of Western States (UWS). If you saw any of the providers listed below at our clinic, they are resuming in-person visits at their affiliated school health clinics. This includes Brandt Stickley, LAc with NUNM, Katherine Annala, LAc with OCOM, and Peter Vuky, DC with UWS.

If your insurance company has a prior authorization for acupuncture and/or chiropractic visits on file with our clinic, all remaining visits for 2020 will be relinquished so you can continue your care at another clinic.

Please check out our website for more info on the school clinics and other low-cost Acupuncture and Chiropractic clinics: <https://outsidein.org/health-services/alternative-medicine/>. If you would like assistance or further information about these clinics, please contact us at (503) 535-3860.

We hope to continue to support you in your wellness journey as you transition your care. Thank you for your choosing us as your alternative medicine provider.

Sincerely,

A handwritten signature in black ink that reads "Mallory Dudley".
